PROFILE SUMMARY

Full-Stack Developer specializing in AI-integrated applications, building multi-agent systems (CrewAI), RAG pipelines with vector databases, and production-grade web/mobile platforms. Experienced in architecting end-to-end solutions from intelligent agent workflows to resilient cloud deployments.

TECHNICAL SKILLS

- **AI & LLM Tooling:** CrewAI, Autonomous Multi-Agent Systems, RAG Pipelines, ChromaDB (Vector DB), Groq & Gemini APIs, Prompt Engineering, LLM Calibration
- **Frontend:** React.js, Next.js, React Native & Expo, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, HTML5/CSS3
- **Backend & APIs:** Node.js, Express.js, FastAPI, RESTful Architecture, WebSockets (Socket.io), System Design
- **Databases & Storage:** MongoDB Atlas, Mongoose, ChromaDB, JSON Schema, Vector Indexing
- **Tools & DevOps:** Git, GitHub, Docker, Postman, Vercel, Render, Streamlit, Linux, VS Code

PROFESSIONAL EXPERIENCE

Freelance Full-Stack & AI Systems Developer | Self-Employed / Remote | 2025 – Present

- Designing and orchestrating multi-agent workflows with CrewAI and ChromaDB RAG to automate proposal generation and document intelligence.
- Engineering high-performance web applications and mobile apps using React.js, React Native, and Node.js with sub-second API response times.
- Implementing robust database schemas on MongoDB Atlas, ensuring zero-latency data synchronization and secure JWT authentication.

FEATURED ENGINEERING PROJECTS

- **Sharpen Prompt** (React, LLM Optimization, Gemini API) — Built an intelligent prompt engineering & calibration suite to benchmark system instructions for high-reasoning LLMs, eliminating hallucination risks.
- **Upwork Proposal Generator** (CrewAI, ChromaDB, Groq/Gemini, Streamlit) — Multi-agent system querying vector stores with coordinated agents to generate tailored client bids.
- **Hafiz Bags Factory Management** (React Native, Expo, MongoDB Atlas) — Digital factory operations mobile platform for inventory, assembly floor tracking, and order dispatch (client est. 1993).
- **Real-Time Chat System** (React, Node.js, Socket.io) — Bi-directional WebSocket communication engine with zero-latency presence detection.

EDUCATION

Certificate in Full Stack Web Development (MERN) & AI

Nexskill (Arfa Software Technology Park) | 2025 – 2026 | Lahore, Pakistan

Intermediate in Computer Science (ICS)

Punjab Group of Colleges | 2024 – 2026 | Lahore, Pakistan
